THREATEN TO KILL MARSH

DRUNKS MAKE VIOLENT ATTACK ON FOL LEWIS HOME.

VENE ROBERTS ON BOND

Arthur Roberts and Grover Hatcher Not Apprehended—Fire Shots At Mrs. Lewis.

One of the worst occurrences which has happened in Nodaway County in recent years was last Tuesday afternoon when three men stopped at the farm house of Fol Lewis eight miles southwest of Barnard, breaking in the back door of the Lewis house, firing a shot at Mrs. Lewis, and taking the Lewis' daughter, Mrs. R. D. Marsh, by bodily force to their car, which was in front of the house and keeping her out two days.

One of the men, Vene ("Bone") Roberts, was arrested last week by Sheriff Campbell and is now out on bail of $1,000. The other two men charged with making the attack are Arthur Roberts, a brother of "Bone' Roberts, and Grover Hatcher. Hatcher and Arthur Roberts have not been apprehended yet. All three of them are charged with assault with intent to kill. Hatcher lives near Graham while the two Roberts boys live in Maitland.

The story as told to the authorities is that the three men stopped at the Lewis' farm, all of them being drunk. They went to the house, yelling they were going to kill Mrs. Marsh's husband. The Roberts boys went to the front of the house, Arthur Roberts having a .22 caliber Savage rifle, and Hatcher going to the back of the house. Hatcher jerked the back door off, and entering the house, he said he was going to kill Marsh. These men also had a revolver with them.

Marsh climbed up the attic in the house before Hatcher got into the house. There were no firearms in the house.

Mrs. Marsh pleaded with the men and finally she was picked up bodily by Arthur Roberts and Hatcher and carried to their car. Mrs. Lewis as well as Mr. Lewis followed them, and Arthur Roberts is said to have leveled his .22 rifle at Mrs. Lewis and fired, the bullet just missing Mrs. Lewis and took effect in the house, after going through a window.

These men threatened to kill Mr. Lewis if he did not get back into the house. They then started off in their car with Mrs. Marsh and kept her out Tuesday night and all day Wednesday up to 3 o'clock Thursday morning.

Mrs. Marsh says she was not abused by the men, according to George Pat Wright, prosecuting attorney.

Hatcher has been out of the penitentiary just a few months, having been sent up from Andrew County where he was convicted of stealing hogs. Hatcher has also been arrested here on a bootlegging charge but while out on bail he was picked up by the Andrew County authorities for hog stealing.

Mrs. Marsh and her husband moved to Maryville Monday.

ASK DECISION BE REVERSED

COURT SHOULD RE-CONSIDER AWARD TO PROSECUTORS.

RESOLUTIONS ADOPTED

County Judges in Convention Invite Governor Baker to Next Meeting—Want State Printing Press.

Believing that the high court of the state was in error when it awarded increases to double the prosecuting attorneys and other county officers salaries, is wrong in principal, and decision reversed, the convention of county judges that met in Sedalia during the state fair adopted resolutions to this effect.

The resolutions signed by J. D. King, chairman, in the final paragraph, call on the court to carefully review the decisions rendered which awarded huge increase of salaries to see if there is not another and a more just rule of right and equity between the voters and taxpayers and the clamorous ex-officers for the pound of flesh taken near the heart of the public. The resolutions state that the "Legislature never had in mind that salaries were to be based on the votes of men and women. We have always understood that the reason and spirit of the law was the law itself. It strikes the lay mind as a monstrosity to let officers double their salaries by a fortuitous condition happening about a matter they never had in mind when the law was passed."

The resolutions are in part concerning this matter:

"The law fixing salaries based on the votes at preceding elections was passed with the knowledge of the Legislature that only men could vote. And the method of determining salaries was based on a scheme of multiplying the vote by such a ratio as would approximately determine the actual population of counties between censuses. A constitutional amendment gave the women the right of suffrage to women, and no modifying legislation was enacted as to salaries. This action of the people of the United States should not and ought not to be accepted as a basis for fixing salaries in the state of Missouri. By reason of the holding of our highest court under the law, salaries of county attorneys have in many counties been doubled from $2,500 to $5,000 per year; many counties are now being sued for back salaries in sums of from $5,000 to $10,000.

"Many counties having a population by the 1920, census of 25 to 30 thousands are thus artificially determined to have a population of over 50,000 and prosecuting attorneys awarded a salary of $5,000 per year, whereas, the former salary was only $2,500, and they were glad to serve for that liberal salary."

"A few of the monstrosities of this condition are catalogued:

"Where salaries of prosecuting attorneys have jumped from $2,500 to $5,000 they are getting more salaries than the circuit judges.

"The duties and qualifications of prosecuting attorneys do not begin to compare with the positions and duties of circuit judges.

"This granting of this arbitrary increase of salaries to prosecuting attorneys violates the faith upon which they were elected to office; violates the compact with the people of the counties who elevated them to office.

"This increase of salaries is exhausting the treasuries of the public and putting an unreasonable burden on the tax paying public.

"The basis on which this arbitrary award is made to such officers is false in fact, known of every citizen to be false and that the treasuries are being raided unjustly by such officers in violation of what they and the public understood were the salaries attached to such offices when elected.

"Most of suits brought for increased salaries brought after services rendered, based on technicality with no foundation of trust.

"We feel that our highest court ought to reconsider the basis on which the holdings made, have been alleged to stand, to see if in fact they are not false and that another and more equitable ruling made. We feel that our said court ought to hold that by reason of the fact that women were permitted to vote that there no longer was any law to fix salaries o' the vote, and that here was a case of failure of legislation and that the then salaries could not be increased or changed until there was a new legislation based on the changed conditions."

Other recommendations of the convention of county judges that were included in the resolutions are:

That Governor Baker be invited to meet with the convention next year; that a state printing press, conducted by prisoners, be established; that associate judges be elected for term of four years and be elected at presidential years, the presiding judges to be elected at off-year elections.

The convention was attended by the members of the Nodaway County court, Judges E. T. Bailey, J. N. Billingsley and Charles Armstrong.

SAM ENGLAND SECOND LIEUT.

ELECTED TO COMMISSION IN BATTERY C.

TOP "KICK" 2 YEARS

Has Been Member Local Battery For Three Years—Is Captain of 1925 Bearcat Eleven.

Sam H. England, for two years top sergeant of Battery C, 128th Field Artillery, Missouri National Guard, was elevated to rank of second lieutenant at an election held at Battery drill last night. He has been a member of the organization for about three years.

According to a change made in the table of organization recently, the commissioned officers of the Battery now consists of a captain, one first lieutenant and two second lieutenants. The election of a second lieutenant last night was made to fill a vacancy in the staff of commissioned officers caused by the resignation of first lieutenant Robert Garten, who resigned on account of his health. However, under the new table of organization, there will be no advancement in the commissioned officers, as under previous order of affairs Lieutenant E. W. Condon would be advanced to senior first lieutenant and Lieutenant H. Frank Lawrence moved up from second to junior first lieutenant. The rankings will remain the same and the staff of commissioned officers of Battery C now consists of Capt. Kyle P. Phares, First Lieutenant E. W. Condon, and second lieutenants, H. Frank Lawrence and Sam H. England.

Sam England is a son of Mr. and Mrs. Harve England of Maryville. He was graduated from the Maryville High School and has been attending the Northwest Missouri State Teachers College. Sam participates in football and for the last two years made his letter and received the honor of being elected captain of the 1925 Bearcat eleven, which he will lead this year. He plays guard on the Northwest Teachers gridiron machine.

Captain Phares said this morning that the appointment of a first sergeant to succeed Sam England had not been made.

FULTON WINS HIGHWAY TILT

COMMISSION AGREED ON COMPROMISE SUGGESTION.

WORK MAY GO AHEAD

Injunction Action is Expected To Be Dissolved Following Action—Cave Doubts Settlement.

Kansas City, Sept. 1.—The compromise suggestion of Fulton citizens in the injunction suit brought by the latter, which blocked the building of the Kansas City-St. Louis highway, today was unconditionally agreed to by the state highway commission.

As a result the injunction suit is expected to be dissolved immediately and contracts for building the forty-mile link in controversy probably will be awarded next Tuesday, Theodore Gary, chairman of the state highway commission, announced here today.

At the same time, contracts will be awarded for the construction of the seven-mile spur connecting Fulton with the cross-state highway, one of of the demands of the injunction suit.

Senator Nick Cave, attorney for the plaintiffs in the suit, expressed doubt that the commission's surrender would settle the injunction action. The proposal will be submitted to the petitioners at a special meeting in Fulton this afternoon, Cave said.

PN-9 NO. 1 IS PLUNGING ON

NEARLY 1,600 MILES OUT FROM SAN FRANCISCO.

NON-STOP TO HAWAII

U. S. Planes Start on Epochal 2,100 Mile Flight and Only One Survive.

San Francisco, Sept. 1.—PN-9 No. 1, naval guard seaslane, plunged onward in the epochal 2,100-mile non-stop flight from San Francisco to Hawaii and this afternoon was rapidly approaching the destroyer Farragut, eighth guard ship, 1,600 miles out from the Golden Gate.

San Francisco, Sept. 1.—Plane No. 1, sole survivor of the navy's two-plane 2,100 mile non-stop flight to Hawaii, was winging her way over the last 1,000 miles of the great adventure today.

A report from the plane said she had passed the guard ship, Doyen, midpoint of the flight at 4:45 o'clock this morning and was plunging ahead at eighty-five miles an hour and at an altitude of 850 feet.

A night of anxiety was ended by the announcement that plane No. 3 was safe. Finding of the No. 3 came after an all-night search. She failed to be sighted after the No. 1 plane passed over the U. S. S. McCawley, 400 miles out, at 8:40 p. m. As hours passed and no radio communication was received from the missing seaplane, anxiety began to manifest itself. Giant searchlights from the destroyer, McCawley, swept the ocean's expanse for signs of No. 3 plane. Scores of outlooks scoured every foot of the sea's surface. The night was favorable for the search.

Finally, after hours of searching, the Doyen came upon the missing plane about 100 miles west of the Doyen's mid-station and 300 miles off the California coast. Broken oil pressure lines forced the ship out of the air race.

San Francisco, Sept. 1.—Two giant naval seaplanes, the PN-9 No. 1 and the PN-9 No. 3, darted out of San Pablo Bay yesterday afternoon bound for Hawaii, 2,100 nautical miles away.

An hour later the planes were flying easily, at the height of more than five hundred feet, and had established radio communication with shore stations. All was well at last report. Officers at naval headquarters considered everything favorable for the success of the non-stop flight, estimated to require twenty-six hours.

The PN-9 No. 3, in command of Lieut. Allan P. Snody, left the water at 2:42 o'clock. The PN-9 No. 1 flagplane, took the air at 2:55 o'clock, piloted by Com. John Rodgers, in command of the flight unit. By 3:11 o'clock both crafts had passed over the Golden Gate and headed for the open sea.

A Noisy Goodbye.

A swarm of aircraft, including escort naval planes and planes bearing photographers, hovered around the seaplanes when they began their epochal adventure. Launches, ferryboats and sight-seeing boats joined in giving the flying sailors a noisy send-off.

The PN-9 No. 3, having a start of thirteen minutes, reached the ocean first, but the flagplane was gaining rapidly when the planes passed out of sight.

Each plane carries a crew of five, a total weight of 19,200 pounds, 1,287 gallons of gasoline and has a wing spread of 72 feet 10 inches.

The third plane cast for a role in the Hawaiian adventure, the PB-1, was unable to start with the others, because of mechanical difficulties. New twin engines were installed after the PB-1 flew here from Seattle eight days ago, and they were not adjusted completely. Nevertheless, the plane rose from the army air field at Crissy Field at San Francisco just before the PN-9 planes left.

The navy's San Francisco-Honolulu flight, it is hoped, will establish a new

The Weather

Generally fair to-night and Wednesday; warmer to-night and continued warm Wednesday.

Dresses

The silhouette has undergone a vast change, particularly so in dresses. Princess lines, bolero effect, the gored model and the back flare are some of the new lines favored. High colors are decidedly popular. The pansy shades, and dahlia colorings are outstanding. Tailored frocks continue in vogue in new fabrics and colors, of course; satins, crepes and soft wooly fabrics Fashion dressy daytime and tailored dresses.

Coats

Coats of fabric, fur and fashion ably sums up the mode for fall and winter. Materials are unusually rich, furs are abundantly employed and fashion nods approvingly at various types of silhouette. The flare and wrap-around models are prominent; the slender line coats are also conspicuous. Blues, shades of purple, browns, mahogany, green, Burgundy reds, and black are much in evidence.

New Cloaks and Dresses for Fall 1925

Marriage License.

A marriage license was issued this afternoon to Fred E. Gould and Eva M. Goff, both of Bedford, Ia. They were married by the Rev. Guy L. Prather at his home.

Says Baby Story Is a Myth

The marriage of Mr. and Mrs. Floyd Bonham, above, of Los Angeles, is threatened with a bigamy charge brought by Alvine Johnstone, below. Johnstone insists Mrs. Bonham is his wife and that a baby was born to them. Mrs. Bonham says she went through a marriage ceremony with Johnstone to help him in a legal matter, but that it was illegal. She denies the baby was born to her.

Find Nurse's Body in Marsh

Roger Thomas (left), an 11-year-old boy, found fragments of the body of Mrs. Bessie Loren, Oakland, Calif., nurse, while he and other children were playing in a marsh near El Cerrito, Calif. Above is a group of officers searching for the rest of the body. The nurse mysteriously disappeared from Oakland a short time ago.

"Mother's Friend is wonderful"

"I used Mother's Friend before my nine pound boy arrived and can say it is wonderful. I was not sick one half as long as when my first baby was born. In fact this one arrived before the Doctor did. I think Mother's Friend is a Friend indeed to Expectant Mothers and I am glad to recommend it." (Signed) Mrs. Zadie Gibson, Akron, Ohio.

"Mother's Friend" is applied externally. It is sold by all druggists.

Rheumatism

"Good-bye old crutch!"

THERE IS positively no longer any excuse for suffering the agonies of rheumatism! Especially in the autumn of your life, when the vital organs weaken, impurities multiply and linger in the muscles and joints, as never before. It is now, just now, when you cannot afford to guess. No day returns!

Here is a joyous fact which can mean to you a fond farewell forever to all the miseries, the tortures, the body-twisting pains that you have suffered from the demon of rheumatism. It is a fact that rheumatism means "blood poverty." It is a fact with the increase of red-cells in your blood, impurities are destroyed. It is a fact that S.S.S. will help Nature build these red-blood-cells! S.S.S. is one of the most powerful blood cleansers in existence. Its results in thousands of rheumatic cases have been nothing short of amazing! The medicinal ingredients of S.S.S. are purely vegetable. This is very important to remember! What can be more inspiring, more wonderful than to see the shackles of pain released from your struggling body, swellings, lingering pains, stiffness of joints and muscles all disappear; your stomach made strong; your face pink with the old sweetheart glow, your blood enriched and your cheeks more plump as they used to be. You can do it! Take S.S.S., the great destroyer of rheumatic impurities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

Trade among Friends

NO matter what some folks say to the contrary, there certainly is a lot of sentiment in business. Friendship, for instance, makes more satisfactory sales than all the cleverness and argument in the world.

You like to trade at a certain store—not because its counters are arranged in a scientific way, but because the folks who serve you are always friendly and helpful.

Just that very thing—FRIENDLY SERVICE—is the power that draws people together into communities like this, where everybody can enjoy the many benefits of neighborly cooperation.

And FRIENDLY SERVICE is the sentimental reason why you find it very much to your advantage to trade with our advertisers—*to buy where you feel at home*, where your friends will see that you are well satisfied.

"How do Banks Make Money?"

How many of your friends can tell you the sources of a bank's income? Do they regard banks as simple repositories for savings?

Tell them that this bank makes money by helping the community make money; by financing new buildings, new streets, new businesses; by lending money to farmers, and by helping the established firms do business.

Savings depositors assist this bank by supplying money; they help our community to grow and prosper; they help themselves by building a surplus that works for them 24 hours a day.

BRIGHTEN YOUR CORNER.

The Democrat-Forum's all dressed up,
In a bran new suit of clothes,
And it improves the office force,
Much more than you'd suppose.

They've plastered, papered, scrubbed the floor
New fixtures they've put in,
And now the office force all smile,
Whereas before they'd grin.

For improvement there was quite a chance,
In some we must allow,
And some we thought were good enough,
But you ought to see them now.

They say "that clothes don't make the man,"
They really don't of course,
But how a little fixin' up,
Does help the office force.

There's Studer the ad manager,
Who wore a care-worn frown,
Since they have dressed the office up,
Is the gayest man in town.

And then there's Mrs. Haller too,
(She is Guy Haller's wife),
Though she was always pleasant,
Has a bran new lease on life.

And so it is all up the line,
From "Devil" up to Ed,
They all look much more pleasant,
Good natured and well fed.

Then brighten up your corner,
With paper smiles and paint,
So folks you meet won't take you,
For some thing that you "ain't."

TEMPERATURE ABOUT NORMAL

HOWEVER, RAINFALL DURING MONTH ABNORMAL

11.24 INCHES OF RAIN

Highest Temperature Last Month 96 Degrees and Lowest 53 Degrees, According to J. R. Brink.

The weather for August just past was uniform in regard to temperature and abnormal as to rainfall.

The highest temperature for the last month was 96 on the seventeenth, according to J. R. Brink, official weather observer. The lowest was 53 degrees on the twenty-first. Mr. Brink reports that the mean temperature for the month varied only one-tenth of a degree for the mean term temperature for August. This August the mean temperature was 73 6-10 degrees and the mean term temperature is 73-7-10.

The highest temperature on record here was 109 degrees on August 4, 1918, and the lowest reading he has recorded is 39 degrees on August 30, 1915. According to Mr. Brink the highest mean temperature on record was 83 3-10 August, 1913, and the lowest mean temperature on record was in 1917, when it was 70 5-8.

The precipitation during the last August lacks only .39 of an inch of equaling the heaviest amount of rainfall on record here in any August. During the month just past 11.24 inches of rain fell, the highest on record here, according to Mr. Brink was 11.63 inches in August 1903. The smallest amount of precipitation since records have been kept was .12 of an inch, August 1894.

The wind movement was about normal, the prevailing direction being southeast. The rainfall here was much heavier than at St. Joseph, where 4.63 inches of rain fell, which is 1.46 inches above normal there.

Babe Ruth Not Known By All Men and Boys

Chicago, Sept. 1. (United Press)—Babe Ruth, fuming over the stinging rebuke handed him by Miller Huggins in the form of a $5,000 fine and indefinite suspension, had something else pop up to worry him.

He learned through an incident here that not all boys and young men know him.

While discussing the recent fining and suspension with newspapermen in a hotel room here, Ruth telephones for a bell boy to take his suit to the tailor shop for pressing.

"What is your name?" the boy asked as he gathered up the suit.

"Ruth."

"Who?"

"Babe Ruth. Babe Ruth," the slugger snapped irritably.

"Oh my Gosh," groaned the belihop as he gathered the suit and fled in confusion.

W. D. Smith On Sesqui Centennial Committee

Sedalia, Mo., Sept. 1.—W. D. Smith, Secretary of the Missouri State Fair, has just received appointment as Missouri representative for the Sesqui-Centennial Committee, Inc., which is the committee in charge of the 150th anniversary celebration of the signing of the Declaration of Independence. The appointment was made by Dr. Charles T. Baylis, president of the National Committee of Washington, D. C.

Mr. Smith's honorary position will entail the direction of organization work in Missouri for the national celebration next year. He will work directly under the regional office which has been established at Winona Lake, Ind. No statement has been made by Mr. Smith as regards the work to be done in Missouri in connection with the national celebration.

The exposition is to be held in Philadelphia in 1926.

THE ONLY DAILY PAPER IN NODAWAY COUNTY

THE NATION'S BEST INVESTMENT.

There is no nation without its national problems. Whether the new nation or the old has greater problems to face is a much debated question. There is no doubt that all of the more ancient countries of the world now have their share of troubles but it is also true that the United States, one of the youngest of nations, has its full share of cares.

Not the least of the problems of this country is its 2,941,274 miles of highways. This vast and intricate system of roads is indispensable to the development and economic needs of the nation, but its maintenance and improvement involves billions of dollars which must come from the people.

It has only been in recent years that the United States undertook the herculean task of improving its highways. There are still those states without modern roads and in no state have the systems of improved highways been completed. Great strides have been made in the last two decades, but the job is only begun.

Universal use of the automobile and motor truck in transportation has taken the lesson of good roads into every section of the country no matter how isolated. Where the railroad goes the permanent highway is necessary as an auxiliary. Where there are no railroads the hard surface road must serve the purpose of the railroad.

The nation must complete the improvement of its highway system regardless of the cost. The only question is how soon will the last mile be under construction.

NO STEADFAST RULE.

A critic once said that "an educated poet is almost always a bad poet; that scholarship produces critics, not creators, and encourages pedantry rather than passion." The facts are convincing that the author was a poor judge of good poetry.

Among the university poets were Spencer, Marlowe, Milton, Dryden, Donne, Gray, Goldsmith, Wordsworth, Coleridge, Scott, Byron, Shelley, Tennyson and Swinburne. Among the non-university poets were Shakespeare, Pope, Cowper, Burns, Blake, Keats and Browning.

It is evident, therefore, that university training is not essential to poesy. But the fact that such poets as Pope and Keats never attended a university does not prove them uneducated. Mr. G. K. Chatterton describes Browning as "the most educated man that ever lived," but Browning never attended an institution of higher learning.

The man who said "an educated poet is almost always a bad poet" is no more in error than the fellows who believe that one must go to college to be educated and that every college man is an educated man.

A real man, after climbing to the top, doesn't forget those who held the ladder for him.

Thousands of people in foreign countries would like to come over here and be dollar chasers.

It might help if we worried less about what we are after here and more about what we are hereafter.

STEWART'S WASHINGTON LETTER

By Charles P. Stewart
NEA Service Writer.

Washington.—The Department of Agriculture's Bureau of Biological Survey was prompt to resent the assertion of Dr. William T. Hornaday, the zoologist, that the bureau isn't doing all it ought, to check destruction of the country's bird life, but the Department of Agriculture's Bureau of Entomology comes across with the information that the birds certainly are being destroyed.

What the entomological folk have to say is purely on their own account, not in answer to the biologists' rather angry rebuttal of Dr. Hornaday's charge. They simply arise to remark that bugs are a good deal worse agricultural problem than they used to be, and that the reason is—there aren't so many birds.

"Nature has her balances," as Congressman Martin L. Davey, the tree doctor, remarked to me recently, "and when they're disturbed it makes bad work.

"For instance, plant life would be endangered but for birds. Insects live on the plants and if there were enough of them they'd eat all the vegetation up. There would be enough of them, too, if it weren't for the birds. They eat the insects.

"They eat so many, if there are enough birds, that the plants hold their own. The more birds the more plants. But destroy the birds or reduce their number considerably and the insects multiply enormously and at a prodigious rate, and simply sweep vegetation away."

That America's bird life has diminished greatly in the last generation or two no authority on the subject denies. Some of the Agriculture Department entomologists estimate that it has been reduced by half in 40 years. But, reply the departmental biologist, most of the destruction occurred during the earlier part of the 40 years, when less protection was afforded than is afforded today; it's adequate now.

Dr. Hornaday says not. He says it's inadequate yet, and he intimates that he thinks the departmental biologists know it but don't do anything about it because they're too completely under the influence of the American Game Protective and Propagating Association, whose members, he farther hints, seems to him more interested in hunting than in protecting and propagating game.

MRS. FULLER MADE STRONG

Lydia E. Pinkham's Vegetable Compound Helped where Other Medicines Failed

Walpole, N. H.—"I have used Lydia E. Pinkham's Vegetable Compound and find it has improved my health wonderfully. For months and months I was not regular and had terrible pains. They used to affect my side so I could not work. I read of others being helped by the Vegetable Compound, so I thought it might help me. I am very much better now, strong enough to do my own housework, and have two dear babies to care for besides. I tried other medicines before taking the Vegetable Compound, but I was never treated for my troubles. I speak highly of the Vegetable Compound to my friends and recommend it to any woman for rundown and nervous condition."—Mrs. T. H. FULLER, Walpole, New Hampshire.

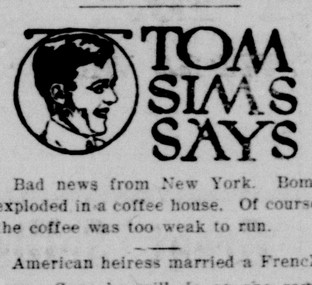
Over 200,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

98 out of every 100 of the replies say, "Yes" and because the Vegetable Compound has been helping other women it should help you. For sale by druggists everywhere.

How to Reduce Traffic Accidents.

Chicago, Sept. 1 — (United Press)—More kisses and better breakfasts will reduce traffic accidents, according to the National Safety Council.

The unkissed husband who leaves home with the unsatisfying taste of a poorly prepared breakfast and a "grumpy" attitude, is the cause of a large number of mishaps, the council said.



Bad news from New York. Bomb exploded in a coffee house. Of course, the coffee was too weak to run.

American heiress married a Frenchman. Says he will do as she says. Thinks he's joking. He isn't.

Some people will do anything to save money. In Los Angeles, a rich widow married her chauffeur.

Boston man asks divorce. Says she kept him in hot water. He should have waited a bit. Winter's coming.

Even beds are dangerous. In Louisville, Ky., a man fell out of one and broke two ribs.

Let's be real quiet about it and maybe this winter will slip by without a crossword puzzle craze.

Says: Grandest Stomach Medicine in the World

Relief Comes at Once But Better Still Chronic Indigestion Goes for Good.

Get a bottle of Dare's Mentha-Pepsin from Koch Pharmacy today with the distinct understanding that your money will be promptly returned if it does not stop the most acute stomach distress quicker than any remedy you ever used.

Your stomach may be so distended with gas that you think every minute your heart is going to stop beating, yet with one tablespoonful of Dare's Mentha-Pepsin that dreadful feeling of suffocation will vanish in a few minutes.

It's a wonderful formula—this combination of Pepsin with other good stomach invigorators—so wonderful that in one small town in New Jersey, in 1921, over 6,000 bottles were sold.

Never mind what causes your indigestion or gastritis, or how long you have had it, or how many other remedies you have tried, this is the one medicine that will make your old disabled stomach so strong and healthy that you can digest anything you eat without the slightest distress.

Even catarrh of the stomach can be banished in a reasonable length of time.

And you know that when your stomach is in fine shape, nervousness, headaches and dizziness won't bother you. Every regular druggist guarantees one bottle of Dare's Mentha-Pepsin. Koch Pharmacy sells lots of it.

Former Prima Donna Now In Charity Ward

Charlotte Caillless, Once Famous, Has Incurable Malady—Says She Will Come Back.

By EARL J. JOHNSON
United Press Staff Correspondent.

Chicago, Sept. 1.—Six years ago Mme. Charlotte Caillless was toasted throughout Europe as prima donna of the Royal Opera Company of Wiesbaden.

Today a penniless invalid, she faces discharge from the charity ward of St. Luke's Hospital because she has a malady that is incurable.

Singing as Brunnhilde in Die Walkure, Mme. Caillless won for herself the commendation of old world royalty as well as the applause of the music loving multitudes. London society feted her, the brilliant pupil of Johanne Wagner, niece of the composer.

As a "free bed" patient for five weeks at St. Luke's where every remedy known to science for the treatment of arthritis has failed, the former diva of Kaiser Wilhelm's soon must seek a charity home for incurables. The hospital can not keep chronic cases.

It was a blustery winter evening in 1919 when the European star arrived here to arrange with Mary Garden to join the Chicago Opera Company. Her funds were low; she had no friends and the Chicago Opera Company was on tour.

With old world triumphs still fresh in her memory this disappointment was more than Mme. Caillless could endure. Life seemed worthless. She attempted suicide.

But now, when doctors have pronounced her incurable and are about to order her removed to the even more depressing environment of an invalid's home, Mme. Caillless speaks hope with every breath.

"I will come back" the singer said.

Smiling from her hospital cot, she did not seem the figure of hopelessness that her case would call for.

"In two years when all the world is celebrating the centennial of Beethoven, it is my hope to appear again in the roles I have loved and been successful in," she said.

"I will then prove to the world that my misfortunes have neither impaired my voice or drowned my spirits."

ALL IT WOULD BEAR.

"You say the trout weighed ten pounds?"

"Yes, sir; it was the biggest trout I ever saw."

"And it got away from you?"

"Yes."

"Will you make an oath to that?"

"I'll make no more oaths; I swore enough when it got away."—The Boston Transcript.

Many Slogans Are Suggested For Missouri

Jefferson City, Mo., Sept. 1.—Slogans continue to pour into the office of the State Board of Agriculture since the announcement of Secretary Jewell Mayes that the board wanted suggestions for a slogan, typical of the present day Missouri.

Judging from the letters received, the contributors are of all ages, occupations and from varied walks of life. The bulk of offerings have come from Missouri residents but some have been sent from neighboring states, chiefly from Illinois, Iowa and Kansas.

Secretary Mayes said today that he intended to have all of the slogans suggested typewritten and submitted to a committee of board members. He will instruct the committee to scan the slogans, which already are numbered in the thousands for a suitable Missouri "battle cry."

If the board committee can agree upon the idea, it is planned to take steps whereby the other departments of the state and various organizations of Missouri will adopt the slogan, thereby creating a standard for the entire state.

Most of the offerings to date have been of a complimentary nature, pointing out the agricultural, industrial, social, educational and other advantages of Missouri.

Numbered among the recent arrivals are: Missouri—The magnet state; Missouri—The Mother of the West; Missouri—The Modern Eden; In the land of opportunities; Missouri—Not better than the best, but better than the rest; Missouri—The Beacon Star in Old Glory; Best of soil—less of toil in Missouri; and Business booms—Gladness looms in good old Missouri.

Fifteen slogans were submitted by an admitted grandmother, who resides in Ottumwa, Iowa. The elderly lady offered a varied list including: Missouri—Goodby Monkeys; Missouri—No starvy, no freezy; Missouri—Full Pockets and Missouri—A coin on her nose.

"Some job, this slogan business," said Secretary Mayes.

Years of Service

A furnace is an investment. And it should be a wise investment. One that insures comfort and economy over a long period of years.

WEIR Furnaces have been manufactured for more than forty years and many of the first WEIRS are still in active service. It is this kind of service that has placed the WEIR on the pinnacle of leadership and has proven to the furnace industry that WEIR Basic Principles of Construction are RIGHT.

The WEIR is the heaviest constructed steel furnace on the American market and although the first cost is a trifle more, it pays large dividends *each year*, by saving tons of fuel and delivering pure, healthful, moist air throughout your home.

Let us explain

WEIR FACTS

The heaviest constructed steel furnace on the American market.

Extra large water pan insures moist, healthful heat.

Greater heating surface assures more heat and less loss of heat out the chimney.

Manufactured for more than 40 years.

Large double door permits the use of any size fuel.

These and many other WEIR features gladly explained to you in detail.

FURNACE

Since early last spring your furnace has been idle pretty much of the time. Perhaps there was left in the fire box a small amount of ashes. Perhaps this has become damp and is hurting the fire-resisting properties.

Have us tend to this matter now. It will be much better than latter on when you will be needing your furnace.

A furnace that has the proper care will last many years, and give you very efficient service.

Famous Savannah Physician Dead

Dr. Perry Louis Nichols, Head of Sanitarium, Succumbs after Nine Months Illness.

Dr. Perry Louis Nichols, sixty-two years old, founder of Nichols' Sanitarium at Savannah, Mo., died at 5:15 o'clock Saturday afternoon at the sanitarium, after an illness of nine months. He had been bedfast three months. Death was due to heart trouble.

Doctor Nichols was born at Shellsburg, Iowa. He attended medical college in his young manhood, and for a number of years practiced medicine in Iowa. In 1896 he became interested in the treatment of cancer, and began specializing in the disease at Des Moines. Later he established a sanitarium at Hot Springs, S. D., found the location not suitable, and in 1912 he opened the sanitarium at Savannah. From a modest beginning the institution has expanded to large proportions, and it occupies a beautiful site at the southern edge of the pretty Andrew County capital, with a group of buildings of commanding appearance.

Doctor Nichols had been married twice, and of the first union he is survived by two children, Miss Helen Nichols and Jack Nichols. Mrs. Amanda Nichols, the second wife, survives him, as does a son, George P. Nichols, of this union. The body of Doctor Nichols will be removed to the Presbyterian Church in Savannah at 1:30 o'clock this afternoon, where it will lie in state until 2:30 o'clock, when the funeral service will be conducted by the pastor. Burial will be in the Savannah Cemetery.

Closing Grain Review.

Chicago, Sept. 1.—Grain trade closed irregular on the Board of Trade today. Wheat suffered fractional losses. Corn was sharply higher, carrying oats with it.

Bullish private export figures buoyed up wheat and checked the downward turn on profit selling.

The market opened higher. The top selling by commission houses caused a reaction.

Persistent buying by leading commission houses boosted corn.

Oats held within a narrow margin but averaged higher with the corn.

Good packing house buying and some commission house covering boosted provisions.

A Bumper Corn Crop in Sight

(The Hog Crop is far below normal.)

You will soon be feeding new corn, and your hogs will need mineral.

Our Regular Mineral will supply the need.

It is suiting others; and will suit you.

Read what Dr. C. S. Meyers, Auburn, Nebr., says:

Auburn, Nebr., June 16, 1925.

Stock Yards Daily Journal, St. Joseph, Mo.

Dear Sirs:—Since reading the first adv. of the Bradley Farms Necro-Mineral Co., Elmo, Mo., which appeared in your columns about two months ago, I have had occasion to thoroughly try out the merits of these mixtures, in several herds near Auburn, Nebr., which were badly infected with Necrotic Enteritis. I can truthfully say, that out of a possible 2,000 hogs, which we have treated with Necro-Mineral, we have not lost to exceed 10 hogs. I am also finding their Regular Mineral, as a preventative of Necro, to be all they claim; and believe that Mr. Bradley has discovered a formula which will be of great benefit to Veterinarians and Stockmen, in holding this disease in check. I am writing this solely as a matter of information to others; and as a courtesy to the manufacturers of these products. I might add that I have had 22 years of practice; and we had previously lost hogs by the thousands in this locality.

(Signed) C. S. MEYERS, D. V. S.

If we can get the above results, after others have failed, we should be entitled to the business of Nodaway County; and we will assure you that your swine troubles will be given our closest attention.

TANK STARS TO ST. JOE MEET

SWIMMING TEAMS OF FIVE TOWNS ENTERED.

FOR DISTRICT TITLE

Kansas City, St. Joseph, Atchison and Eagle Springs, Will Send Teams.

Thirteen Maryville swimmers will go to St. Joseph Saturday to participate there at 7 o'clock in the Municipal Swimming Pool in an invitation meet. The swimming teams entered are Maryville, St. Joseph, Kansas City, Mo., Atchison, Kan., and Eagle Springs, Kan. The local tank stars should be able to present a good showing with five teams entered, as in a dual meet with Atchison, Kan., here Sunday, the visitors won only by a scant margin of nine points, and with the points split up, the Maryville swimmers will have a chance to cop some of the honors.

According to H. D. Morrow, secretary of the Recreation Committee at St. Joseph, a large silver loving cup will be awarded to the team piling up the most points. In addition to the swimming races, there are to be diving events for both men and women. This meet will establish a championship for Northwest Missouri and Eastern Kansas.

According to George Murray this morning, he thought the following Maryville swimmers would compete Saturday at St. Joseph in the intercity invitation meet:

Maurice ("Buster") Strong, Wallace Hilsabeck, Harold ("Bun") O'Banion, and George Murray, in the men's class. In the women's class Alice Aley, Mabel Aley, Julia Aley, Esther Gile, Wanda Hawkins, Gladys Sellard will compete, while Charles Aley, Stanley Ford, Don Neal and Dinsmore will enter the contests.

A dual meet will be held here at 7 o'clock tomorrow evening at the Maryville Sanitary Swimming Pool, when the St. Joseph team will bring its tank stars here. It is expected that those who are entered in the St. Joseph meet Saturday, will make up the Maryville team here tomorrow.

nonstop world's record. The achievement would top that of two French fliers, Captain Arrachart and Lieutenant Lecaitre, February 3 and 4, 1925, by more than fifty miles, H. F. Morris, member of the contest committee, announced yesterday on behalf of the National Aeronautical Association.

The record the Americans will try to better was established when the intrepid French fliers flew from Etampes, France, to Villa Cisneros, Africa, 1,967.44 miles. Their time was 24 hours and 30 minutes. The distance to Honolulu from San Pablo Bay is approximately 2,100 miles.

Gasoline tanks will not be sealed in this flight, the contest committee and naval officers have decided. The reason is the gauges of the gasoline tanks do not always register correctly and the fliers desire the privilege of opening the tanks from time to time to measure the quantity of gasoline remaining. Instead of the official seal, the solemn oath of the fliers will assure that no gasoline will be taken on the way.

Success In Iowa Recount Announced By Both Factions—Senate to Decide.

Washington, Sept. 1.—At the close of the senate recount last night of the votes cast in the Iowa senatorial election, supervisors for both Brookhart and Daniel F. Steck, his Democratic opponent, claimed victory for their candidates.

The final outcome, however, will not be known until the senate committee on privileges and elections canvass the 8,727 challenged ballots and officially passes on them. If all of the challenged ballots should be declared valid, Senator Brookhart would have a plurality of 184 votes.

Somerville Confers With Quitman Board

The Quitman Consolidated School is making arrangements to have the Tarpley ward school equipped so that it will conform to the requirements of a first class rural school, according to Leslie G. Somerville, county superintendent of schools, who made a trip to Quitman this morning and conferred with the board of education.

Does Not Expect Weeks To Resign

Swampscott, Mass., Sept. 1.—President Coolidge does not expect John W. Weeks to resign as Secretary of War, it was stated here today. Despite the fact that weeks has failed to return to his desk by September 1 as he orginally intended, Mr. Coolidge expects him back within a few days.

Starts Attack On Purdy, Mo., Doctor

State Will Attempt To Show Dr. Roy B. Horton Is Not High School Graduate.

Purdy, Mo., Sept. 1.—The state today started taking depositions in its suit against Roy B. Horton in an attempt to relieve him of his license to practice medicine.

The depositions are being taken in an attempt to show that Horton was not a graduate of the Purdy High School as he had claimed to be. Several members of the board of education will be called upon to testify concerning this phase of the case.

Colberts Return Today.

Mr. and Mrs. George H. Colbert returned at noon today from a vacation trip to Romasser and mountain resorts in Colorado. At Denver they were guests of Mrs. Colbert's sister. Mrs. Colbert has been gone two months and Mr. Colbert joined her a few weeks ago. Their son, Ned Colbert, is expected home the last of the week from Colorado, where he has been engaged in government forestry work during the summer.

Former Resident Here.

Mrs. O. P. Wade of Denver, Colo., arrived in Maryville yesterday for a few days visit. She has been visiting her son, H. B. Wade, and family, at Los Angeles, Cal., and is en route to West Virginia points to spend about two months with her brothers and sisters.

The Courtney Sisters of Kansas City, who are visiting relatives in Maryville, will give an entertainment at the community hall in Parnell tonight. The affair is under the auspices of the Sunday school class of the M. E. Church at Parnell, taught by Mrs. T. M. Cox.

Cricket Ace

They call him the "Babe Ruth" of cricket. He's Jack Hobbs of England and he recently scored his 126th "century," thus equaling the record set by Dr. W. C. Grace 21 years ago. A "century" means 100 runs in one inning. Hobbs has been playing only 20 years, whereas Dr. Grace compiled his mark over 40 years of pastiming.

Miss Margaret Sorrie, Misses Teresa and Ena Madden and Fred Madden will motor to St. Joseph tomorrow for the day.

Mr. and Mrs. Paul Lewis of Hopkins were Maryville visitors yesterday.

Gasoline Takes Drop Of 1 Cent Here Today

Standard Oil Co., Reduces Price In Eleven States of the Middle West.

Another drop in the price of gasoline became effective this morning at five of the six filling stations in Maryville. The B Square, Gray, Independent, Marland and Standard service filling stations all received notice last night or this morning to make a reduction of 1 cent a gallon on gasoline here.

The Sinclair filling station announced this afternoon that it received notice of a 1 cent drop and reduced the price to 20.2 cents this afternoon.

This is the second reduction that has been made here within a week, as a week ago today gasoline took a drop of 2 cents a gallon and kerosene was affected 1 cent a gallon.

The reduction today brings the price of gasoline down to 20.2 cents a gallon at the filling stations including the 2 cents a gallon state tax, and the price at the tanks is 18.2 cents a gallon.

The Standard took a drop of 2 cents, effective over eleven states of the Middle West and four of the other local stations here reduced their price in conformance to meet the competition. There was no cut today in price of kerosene.

Chicago, September 1.—The Standard Oil Company of Indiana last night announced a further reduction of 1 cent a gallon in the price of gasoline, effective today throughout the eleven states it serves.

Officers said the cut was due "to competitive conditions."

Last Tuesday a reduction of 2 cents a gallon was announced, followed by a similar cut Friday.

Marked Kirk Dollar Back After 40 Years

Cape Girardeau, Mo., Sept. 1.—(United Press)—The wandering Kirk marked dollar has returned.

Forty years ago R. A. Kirk sent 100 silver dollars to his parents, Mr. and Mrs. David Kirk at Princeton, Ky., in honor of their twenty-fifth wedding anniversary. The elder Kirk marked six of the coins with his initials, "D. K." and gave them to six grandchildren.

Recently R. A. Kirk, desk clerk in a local hotel, saw a strange coin in the till, that had initials scratched on its surface.

Looking at the coin he found the initials, "D. K." and that the coin had been issued by the treasury department just 40 years ago, 1885. He is positive it is one he sent his father.
